

# **Wonggayerlo**

## ***Footprints in the sand***

**A story about ways of understanding  
our relationship to the natural world**

**Where Science meets Culture**

**A journey of two peoples  
across the generations**

**A journey of sharing**

**Join acclaimed performers Karl Telfer and Michael Mills  
in this unique performance as they travel amongst shared  
footprints along the coastal sands of Adelaide.**

**Presented by The EPA, The Marine Discovery Centre, PAITYA Cultural Productions, and HeapsGood Productions**

**This project is supported by the Environment Protection Authority through the Australian  
Government's National Landcare Programme.**

# Wonggayerlo: Footsteps in the Sand

This will be an outstanding experience for R-7 students that will bring together Aboriginal understanding and western science knowledge of our marine and coastal life. Karl Telfer [credadl.com](http://credadl.com) and Michael Mills, [www.heapsgood.com.au](http://www.heapsgood.com.au) are both outstanding performers.

**Please call Tim or Ursula on 8115 7402 for bookings and more information or email: [info@MarineDiscoveryCentre.com.au](mailto:info@MarineDiscoveryCentre.com.au)**

Performance and Q&A in your School Hall: approximately 1 hour & 15 mins in duration

**Normal Cost: \$6 per child with 200 – 300 students  
\$7 per child with 150 – 200 students**

Primary School children will get an amazing insight into Aboriginal cultural science and western science knowledge of our marine and coastal life.

“This was the most moving experience for my students and I would recommend this to any Primary School.”

**Kristen Messenger, Stradbroke Primary School**

“Wonggayerlo was an outstanding performance that gave my students an amazing insight into Aboriginal culture.”

**Kristy Ogden, Our Lady of Grace, Glengowrie**
