

Porci's Ocean Patrol Activity Sheet

Same But Different Sharks

There are over 400 types of sharks swimming in the world's oceans, but they can look very different to each other. Check out what makes these two South Australian species similar and different, and then design your own shark to live in the Great Southern Reef!

Different

- Grow to 6 metres**
- Triangular, pointed teeth**
- Give birth to 1-2 live pups**
- Eat snapper and tuna**

Great White Shark

Same

- Cartilage instead of bones**
- 5 gill slits**
- 8 fins**
- Rough skin**
- Good sense of smell**

Port Jackson Shark

Different

- Grow to 1.5 metres**
- Flat teeth**
- Lay 1 spiral shaped egg case at a time**
- Eat sea urchins and crabs**
