### Plastic Bags

years   turtles   harm   reusable   plastic

Plastic bags can cause \_\_\_\_\_ to many marine animals in the ocean by tangling them up and looking like food. It can take up to 10-20 \_\_\_\_\_ for a plastic bag to break up into tiny pieces of \_\_\_\_\_ that stay around forever! Marine creatures such as seabirds, whales', fish, and \_\_\_\_\_ can think these small pieces of plastic are their food.

We can swap to \_\_\_\_\_ bags as a good way to help the plastic problem!
