

Porci's Ocean Patrol Activity Sheet

Size of a Stingray

The Smooth Stingray is the largest of all Australian stingrays. They can grow to 4.3 metres in length, 2 metres wide and weigh up to 350 kilograms. That's huge! Can you name some other animals or things that match these measurements?

Things that are about 4.3 metres long:

Things that are about 2 metres wide:

Things that weigh about 350kg:
